ABOUT US:

Established in *July 2016*, **Frayen Enterprise** GPS Tracking System is a pioneering provider of innovative tracking solutions, specializing in GPS-enabled tracking technology. Our office is conveniently located at 14M TS Cruz Subd. Novaliches, Quezon City, Metro Manila, Philippines.

MISSION:

Our mission is to provide reliable and efficient GPS tracking solutions that empower businesses and individuals to make informed decisions, increase productivity, and enhance safety and security through a user-friendly, cost-effective platform. We strive to continually innovate and improve our products and services to ensure our clients' satisfaction.

VISION:

Frayen Enterprise GPS Tracking System aims to be the leading provider of GPS tracking solutions, setting the standard for accuracy, reliability, and customer satisfaction. We aspire to expand our reach and impact by continuously developing and offering cutting-edge tracking technologies that cater to various industries and applications.

As a company, we are dedicated to driving the industry forward by harnessing cutting-edge technology to provide businesses and individuals with the tools they need to manage and monitor their assets effectively.

At year 2024 Frayen Enterprise in partnership with DOKWIFI IT Service a leading solutions service provider across the globe for both commercial and government entities. With over 17 years of experience DOKWIFI IT SERVICE started its operation as Freelance Individual IT Support Service in United Arab Emirates and all other GCC Regions since November 11, 2013, where it offers a suite of solutions for computing device management and security, telecommunications and data validation, fault management, inventory tracking, and control, provisioning and more. In the mid 2019 DOKWIFI started expanding its scope on web and system application development which are mostly hand-crafted Static Websites & CMS platforms. Customers Sectors of Private and Government also utilizes DOKWIFI IT SERVICE, where it maintains the daily operation of their communications/data network and telecom expense management. Frayen Enterprise open up its market gateway to a newly innovated WebPOS Application Technology enhancing every retail and wholesale businesses required, strengthening its business operation with the power of information technology.
